

**LET'S BUILD THEIR FUTURE
TOGETHER !**

Organisation
supporting under-
privileged children
in Cambodia, Laos,
the Philippines and
Vietnam

Founded in 1991, Enfants d'Asie is an organisation supporting nearly 10,500 underprivileged children in Southeast Asia (Cambodia, Laos, the Philippines and Vietnam). Its aim is to support children from very poor families to build a better future. Enfants d'Asie provides them with schooling and training, allowing them to get a stable job after their studies to support their families and become stakeholders in the development of their country.

We take action following 3 values that are dear to us :

NOTRE NOUVELLE AMBITION

With its nearly 30 years of experience of intervention in South-East Asia, our organisation is setting itself a new challenge: to implement the accelerated development of its programs by supporting 50% more children by 2023, while continuing to improve the quality of its support for the most underprivileged populations.

The philosophy of Enfants d'Asie

To take action on anything that can impact school enrollment :

- Taking care of material and basic needs
- Providing moral support and social care of the families
- Providing tutoring according to the children's needs

To enable autonomy and empowerment :

- Passing on the values of Enfants d'Asie
- Offering an educational project suitable for every age
- Providing support for career guidance

To support the beneficiary in the long term and according to his/her living environment :

- Monitoring from primary school to working life
- Preventing from substitution to the family or the educational system
- Collaborating with local schools and partners for monitoring and identifying needs

OUR ACTIONS

We operate in Cambodia, Laos, the Philippines and Vietnam, thanks to qualified local teams, and in collaboration with the families and educational systems in each country.

Enfants d'Asie has been working in **Cambodia** since 1991 through various programs and supports nearly 1,000 children individually or collectively.

CAMBODIA

Nearly 1,000 enfants supported individually

3 main components :

Supporting 10 **state orphanages**

Managing 3 directly-operated homes : Borey Komar (children's home in Khmer), Borey Niseth (students' home), Smong (center for children and young people)

External program (children living with their families and receiving the same support)

Borey Niseth (students' home in Khmer) welcomes around fifty young people in higher education in Phnom Penh.

In addition to housing, students are provided with **personalised support as well as workshops to develop non-professional skills**, that are essentials to make a difference in the Cambodian job market. This skills development program is based around 3 fields: **English, IT, soft and interpersonal skills that are essentials in a professional environment** (self-confidence, learning to live in community, leadership, etc.).

Limvouan, 20 years old, student in mathematics, hosted in Borey Niseth

“Enfants d'Asie gave me the chance to have access to education and provided me with accommodation near my university, which made it easier to pursue my studies. Moreover, I had the opportunity to take English lessons at Borey Niseth. I also enjoy studying all together as we can help each other and share our knowledge.”

OUR ACTIONS

Enfants d'Asie has been working in **Laos** since 1994, and supports nearly 6,000 children all over the country through 4 programs.

LAOS

6500 children supported

Intervention areas :

Vientiane area : **child individual sponsorships**

Zone de Luang Prabang : **supporting 50 children in a school**

Province of Oudomxay: **supporting about ten schools** : building classrooms, providing school kits and sleeping kits, etc.

Implementing a pilot project **to allow 15 young people to have access to higher education**

In **Luang Prabang**, Enfants d'Asie supports the schooling of 50 children from a village in Luang Prabang.

Children receive material support, including **the provision of uniforms or school equipment** and benefit from individualised support to help them complete their education and make their career choice.

Sports and creative activities as well as English lessons are also offered.

Finally, awareness workshops, such as workshops on dental hygiene awareness, are regularly set up.

Benjamine, former country manager in Laos

«The aim of this program is to make children want to go to school and to make them discover things they do not have access on a daily basis through games, activities, outings»

OUR ACTIONS

The organisation's missions can be completed by supporting the beneficiaries with a set of programs that guarantee a comprehensive care for the most vulnerable populations.

Enfants d'Asie has been working in **the Philippines** since 1998 and supports more than 750 children through 3 programs in rural areas and slums on Cebu Island.

THE PHILIPPINES

More than 750 children supported

3 main components :

Providing the beneficiaries and their families with a comprehensive support :
in Cebu slums and rural areas of Cebu Island

Managing a Training Center for **reinforcement and individualised support towards professional integration**

DICE (Drop-In-Center Ermita): **day center** for young children in Ermita slum in Cebu City

The **day center (Drop-In Center Ermita: DICE)** is a place for young children from the Ermita slums in Cebu City. The main objective is **to provide children with a safe, clean and stimulating environment in which to thrive away from the dangers of the street.**

200 children from 3 years old, are welcomed there, for successive sessions adapted to each age: nursing mothers take care of the youngest, whilst playful and development workshops are offered to others. Children are also provided with snacks and medical monitoring.

Families are involved in the DICE project and supported in their children's education.

Miss Rhea, DICE manager

«Listening to the various situations of the children, the various social realities, the risks and vulnerabilities due to the harsh reality of Ermita, a 'reality' where most children live in conflicting values. Illegal acts have become normal acts. Observing how the DICE can help a child's growth and development creates a real sense of satisfaction and motivation.»

OUR ACTIONS

Enfants d'Asie has been working in **Vietnam** since 1995 and supports more than 2000 children and young people, in partnership with local organisations.

VIETNAM

2300 children supported individually or collectively

Main components :

Supporting young girls from ethnic minorities : boarding schools to promote education, higher education projects

Supporting the **schooling of underprivileged students**

Providing a day care for underprivileged children at Maison d'Amour in Ho Chi Minh City

Supporting students towards professional integration

The higher education project

Enfants d'Asie has set up a pilot project to enable **girls from ethnic minorities to pursue higher education at universities in Ho Chi Minh**. The young girls come from the remote Highlands region and have been admitted into a university in Ho Chi Minh.

About ten young girls receive **a financial and moral support until they graduate and find a job**. For instance, tutors support them in their studies and their daily life.

Dong, student in education

«My name is Dong, I joined the higher education project in August 2019. I am studying education at the Ho Chi Minh City University of Education. I am well aware the importance of studying. Although it is difficult to live far from home, I am determined to study hard to achieve excellent results.»

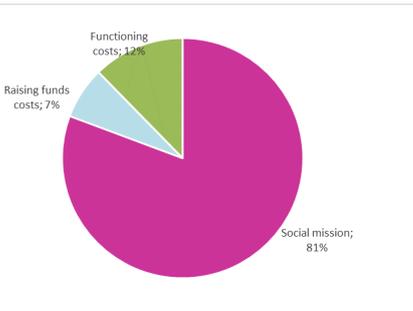

FINANCIAL INFORMATIONS

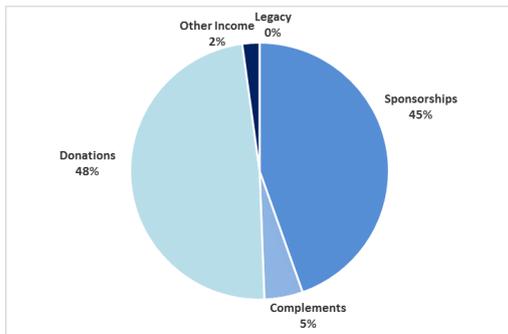

The missions of Enfants d'Asie are financed thanks to the generosity of sponsors, patrons, foundations and companies.

In order to support children until their professional integration and financial autonomy, the organisation needs regular support. Thanks to sponsorships and donations, the organisation can achieve its missions over time and support its beneficiaries through a set of programs guaranteeing a comprehensive care.

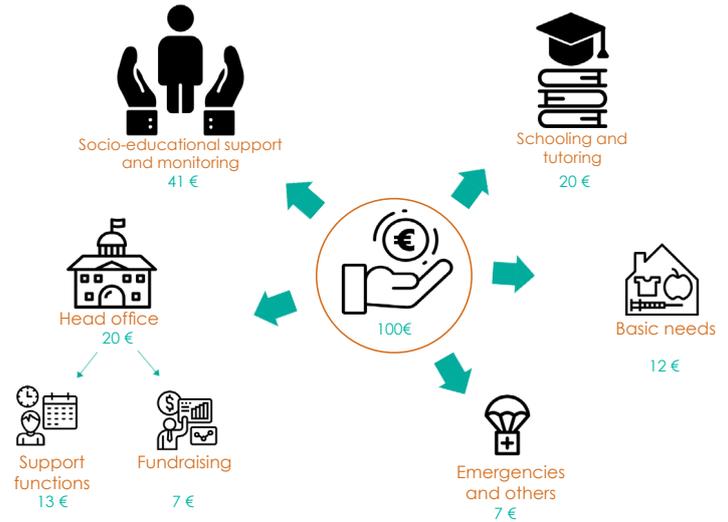

OUR COSTS 2019

OUR RESOURCES 2019

Here is the global distribution, all countries combined, of the donations received by Enfants d'Asie

Enfants d'Asie is recognised as a public utility and received the IDEAS label, which vouches for the quality of the governance, the financial management and the monitoring of the efficiency of the action.
